How many health care professionals have been involved in data collection and web-based data entry at your hospital ?

Answered: 133 Skipped: 0

Have training session(s) specifically for the Global-PPS been organized at hospital level (organization of meetings, discussion on protocol, materials or other)?

Answered: 133 Skipped: 0

The protocol was clearly written.

Answered: 121 Skipped: 12

	Totally disagree	Disagree	Neither agree nor disagree	Agree	Totally agree	N/A	Total	Weighted Average
(no label)	0.00% 0	4.13% 5	5.79% 7	57.85% 70	32.23% 39	0.00% 0	121	4.18

The data collection templates were easy to use.

	Totally disagree	Disagree	Neither agree nor disagree	Agree	Totally agree	N/A	Total	Weighted Average
(no label)	1.65% 2	1.65% 2	8.26% 10	55.37% 67	32.23% 39	0.83% 1	121	4.16

I have consulted the FAQ-list.

Answered: 121 Skipped: 12

I'm satisfied with the FAQ-list, it answered most of my questions and was clearly written.

	Totally disagree	Disagree	Neither agree nor disagree	Agree	Totally agree	N/A	Total	Weighted Average
(no label)	0.83% 1	2.48% 3	11.57% 14	55.37% 67	19.83% 24	9.92% 12	121	4.01

I understood rather quickly how the Global-PPS program worked.

Answered: 128 Skipped: 5

	Totally disagree	Disagree	Neither agree nor disagree	Agree	Totally agree	N/A	Total	Weighted Average
(no label)	0.00% 0	5.47% 7	3.13% 4	61.72% 79	25.00% 32	4.69% 6	128	4.11

The online tool for data-entry “Global-PPS program” was easy to use.

	Totally disagree	Disagree	Neither agree nor disagree	Agree	Totally agree	N/A	Total	Weighted Average
(no label)	1.56% 2	9.38% 12	6.25% 8	51.56% 66	25.78% 33	5.47% 7	128	3.96

The IT-manual was easy to follow and clearly written.

	Totally disagree	Disagree	Neither agree nor disagree	Agree	Totally agree	N/A	Total	Weighted Average
(no label)	0.00% 0	2.34% 3	11.72% 15	56.25% 72	21.09% 27	8.59% 11	128	4.05

I contacted the helpdesk.

Answered: 125 Skipped: 8

If yes, most of my questions concerned:

Answer Choices	Responses
Content related questions (interpretation protocol, definitions, FAQ-list etc)	43.59% 34
Questions concerning the online tool.	82.05% 64
Total Respondents: 78	

I received answers by the helpdesk in a timely manner.

Answered: 125 Skipped: 8

	Totally disagree	Disagree	Neither agree nor disagree	Agree	Totally agree	N/A	Total	Weighted Average
(no label)	0.00% 0	0.80% 1	7.20% 9	24.00% 30	44.00% 55	24.00% 30	125	4.46

I'm satisfied with the provided helpdesk.

	Totally disagree	Disagree	Neither agree nor disagree	Agree	Totally agree	N/A	Total	Weighted Average
(no label)	0.80% 1	0.80% 1	7.20% 9	24.00% 30	43.20% 54	24.00% 30	125	4.42

I will participate again if a second PPS would be organised.

Answered: 116 Skipped: 17

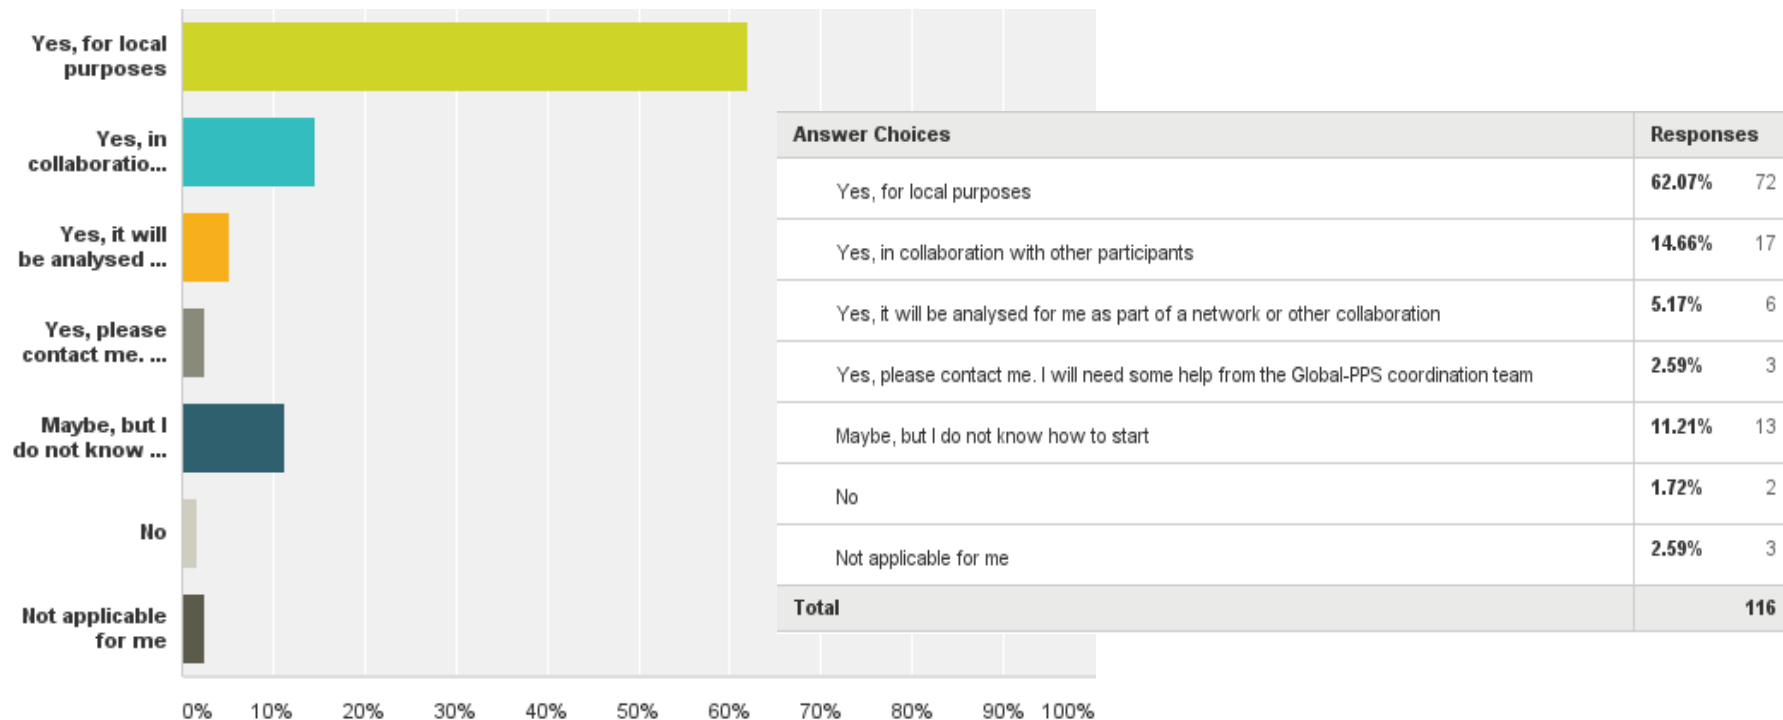

Answer Choices	Responses
Yes, certainly	70.69% 82
Yes, under certain conditions	12.07% 14
Maybe	15.52% 18
No	0.86% 1
Not applicable for me	0.86% 1
Total	116

Participation under certain conditions were:

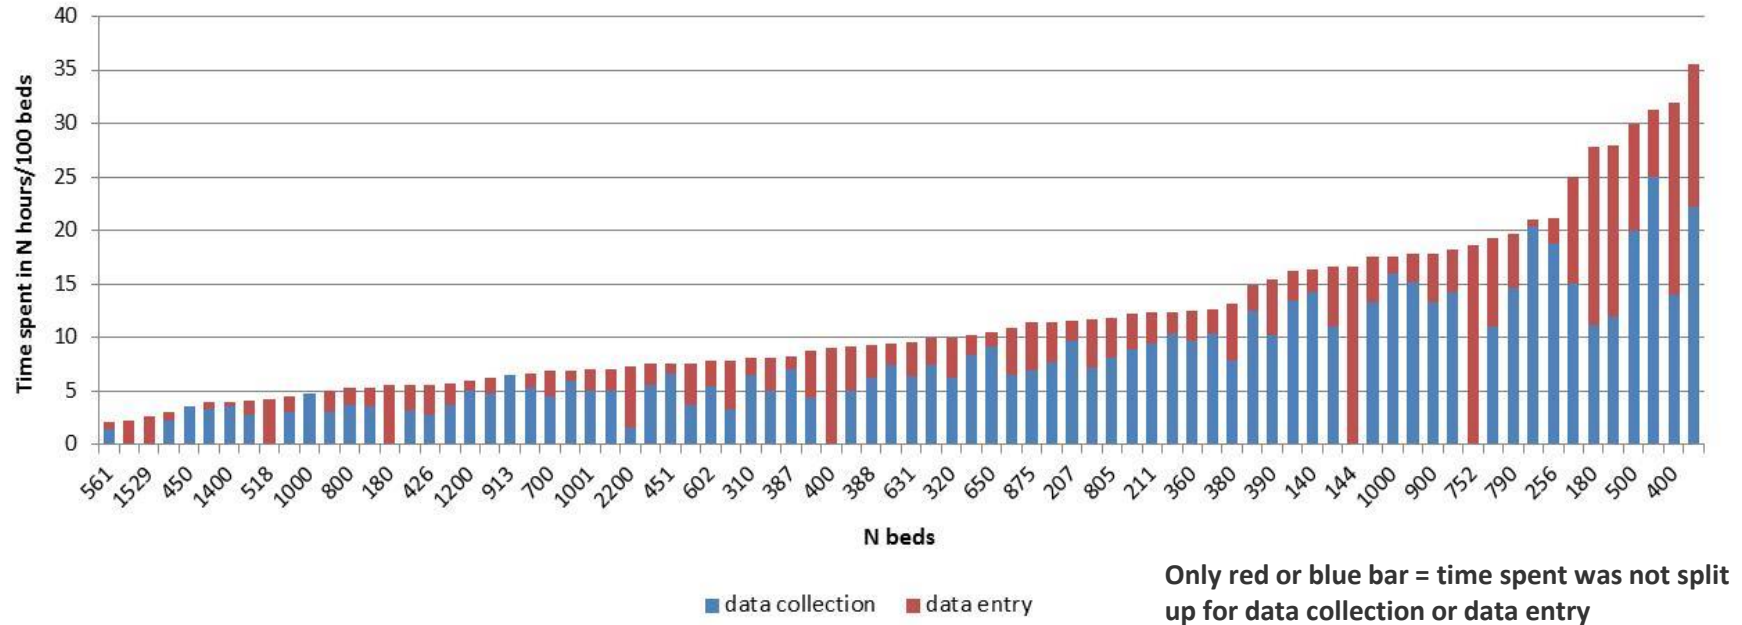

- To have enough human resources
- Easy web base data entry program
- Amount of time invested should not be too long
- feedback must be useful for internal use
- no condition
- Difficult to involve certain colleagues to find time
- Data collection should be immediately digital (not on paper first)
- support for datacollection
- If I have enough time at that moment
- is timeconsuming
- time
- If we can find the manpower

I will analyze the data which were provided to me in excel.

Time spent to conduct the Global-PPS worldwide; expressed in N hours/100 available inpatient-beds

- ✓ Time spent to collect and enter the data online worldwide ranged from 2.2 to 35.6 hours/100 inpatient-beds (average = 11.4 hours/100 inpatient-beds)
- ✓ The time spent does not depend on the hospital-size (N beds). We assume it depends on training, good internet access, etc.

Time spent to conduct the Global-PPS in Belgium; expressed in N hours/100 available inpatient-beds

- ✓ 47 Belgian participants replied the question: “How much time did you spend to collect and enter data onto the Global-PPS program
- ✓ Time spent to collect and enter the data online ranged from 3.1 to 22.5 hours/100 inpatient-beds. Most Belgian hospitals were trained in advance (1-day training).

Bedoccupancy Belgian hosp (mean, range)

	mean	min	max
Primary	77%	62%	98%
Secondary	78%	59%	93%
Tertiary	80%	63%	89%
